DETAILED ACTION

1. The amendment dated 02/13/2009 has been considered and entered for the record. The amendment overcomes previous rejections made, which are hereby withdrawn. New rejections are made below in view of amendment.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 4, 6 – 9, are rejected under 35 U.S.C. 102(b) as being anticipated by Bershas et al. (US 5,486,316)

4. In regards to claims 1, 4, 6 – 9, Bershas teaches a surface active additive comprising a quaternary ammonium salt (abstract). Bershas teaches the quaternary salt such as tetraethylammonium pelargonate, laurate, myristate, oleate, stearate or isostearate which have tetraethyl or C₂ alkyl groups equivalent to groups R¹ to R⁴ in the claim, and organic carboxylic anionic groups which meets the claim (column 7 lines 54 – 59; column 8 lines 14 – 16). Since the salts meet the formula provided in the claim, they are similar compounds to the claim and therefore meet the limitation regarding the base number.

5. Claims 1–13, are rejected under 35 U.S.C. 102(b) as being anticipated by Eugene Lieber (US 2,344,886).

6. In regards to claims 1 – 13, Lieber teaches a lubricating oil composition comprising quaternary ammonium compounds which impart lubricity to oils and prevents the formation of corrosive substances in the oil (column 1 lines 28 – 42). Lieber teaches that the compounds include tetraethyl ammonium oleate etc (column 2 lines 25 – 40). The oleate is an organic carboxylic anionic group which meets the limitation. Lieber teaches the tetraethyl ammonium oleate is present in the oil at 2% which meets the limitations of claims 5, 10 – 13 (Example 1).

Response to Arguments

7. Applicant's arguments have been considered but are moot in view of the new grounds of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
